

BENJARAM SRINATH REDDY

Java Backend Developer | Spring Boot | REST APIs

Hyderabad, Telangana | benjaramsrinath2002@gmail.com | +91 9949420869 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Developer with expertise in Java and Spring Boot for building robust backend applications and scalable RESTful APIs. Experienced in developing database-driven solutions using MySQL/SQL with a focus on clean and maintainable architecture. Possess a good foundation in networking, cybersecurity, and secure coding practices. Skilled in debugging, API development, and version control using Git. Passionate about backend development and exploring AI-driven applications to build efficient and intelligent systems.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python (Fundamentals)

Backend Frameworks: Spring Boot, Spring MVC, Spring Data JPA

Frontend Technologies: HTML5, CSS3, Bootstrap

Database: MySQL, SQL, DBMS

Networking & Cybersecurity: OSI Model, TCP/IP, DNS, HTTP/HTTPS, OSI Security Architecture, Kali Linux (Fundamentals)

Tools & Platforms: Git, GitHub, Postman, Eclipse, VS Code, Docker (Fundamentals)

AI-Assisted Tools: GitHub Copilot, Cursor, Kiro, Windsurf, Google Antigravity

INTERNSHIP

Software Developer Intern

Harini Technologies Pvt. Ltd, Hyderabad, Telangana | Oct 2025 - Mar 2026

- Engineered scalable RESTful APIs using Java and Spring Boot for backend services
- Implemented efficient CRUD operations with MySQL for structured data management
- Designed applications using layered architecture (Controller, Service, Repository) for clean and maintainable code
- Utilized Git and Maven for version control and streamlined build automation
- Performed API testing, validation, and exception handling to ensure reliability and performance

PROJECTS

Blood Donation and Management System

Technologies: Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed a full-stack web application to manage donors, blood inventory, and request workflows
- Designed and built RESTful APIs using Spring Boot for efficient data handling and CRUD operations
- Structured the application using layered architecture to ensure scalability and maintainability
- Integrated MySQL database with optimized queries for efficient data processing
- Implemented validation and exception handling to enhance system reliability and security
- Built a responsive UI for donor registration and advanced blood search features
- Tested and optimized APIs using Postman to ensure smooth functionality

Student Management System (REST API)

Technologies: Java, Spring Boot, MySQL

- Developed RESTful APIs to manage student records with full CRUD functionality
- Applied layered architecture for modular and scalable backend development
- Integrated MySQL database for secure and consistent data storage
- Tested and debugged APIs using Postman with proper exception handling

EDUCATION

Aurora's PG College | Osmania University | Hyderabad

Master of Computer Applications | CGPA: 8.53 | Nov 2023 - Sep 2025

Ramakrishna Degree College, Kamareddy | Telangana University

Bachelor of Science | MPC | CGPA: 9.43 | Jul 2020 - Sep 2023

CERTIFICATIONS

- Prompt Engineering (AI) – LetsUpgrade
- JavaScript Programming – LetsUpgrade
